About Me

I'm a **Security Analyst** I am a recent graduate with a strong passion for cybersecurity, seeking to launch my career as a Security Analyst. With a background in BCA, I have gained hands-on experience through academic projects and certifications like certifications introduction to cybersecurity I am well-versed in threat analysis, network security, and vulnerability assessments. As a detail-oriented and proactive individual, I am eager to apply my knowledge to identify and mitigate risks, ensure data integrity, and contribute to building robust security systems. I am excited to grow professionally in a dynamic and challenging cybersecurity environment.
